From The President's Desk— Stephanie Grubbs

There are beautiful signs of Spring between cold winds and snow. This time of year I have to struggle between working outside in the garden and inside on fiber work. For awhile the flowers will win and I can't resist digging and cleaning out beds, but the outside work is always an inspiration for the inside. All winter I worked on a knotted bowl circled by peas and pea vines. On the day I planted peas I also began making felt peas to fill the bowl. I am very fortunate to be retired, so I no longer have to pick and choose how much time I

can spend on the things I love. However the hours stolen from other duties to do fiber work are the sweetest. I never loved weaving more than the few hours a week I managed to do between taking care of two babies. I hope you are finding time to do the things you enjoy.

Stephanie

PS. I also hope you take a little time to check out FAO's blog, <http://fiberartistsok.org/blog/>. Kay Moore does a beautiful job of creating and maintaining it.

APRIL FAO PROGRAMS

Tulsa. Bob Hawks, who started working full time as a commercial photographer in 1948, will be presenting the April program in Tulsa on photographing your art work. We are lucky to have such a knowledgeable photographer, but since he is Jan's husband there may have been some arm twisting taking place. Anyway don't miss this informative meeting!

OKC. Will be showing the DVD demonstration, Soy Wax Three Ways by Jane Dunnewold that was filmed last year at the SDA Conference in Kansas City. Description: Explore three unique approaches to environmentally friendly and totally addictive soy wax. Cut stamps and stencils or manipulate fabric by folding or pleating before dyeing or discharging. The more times the steps are repeated, the more intriguing the fabrics become.

Jane Dunnewold will be the juror for Fiberworks 2011.

FROM THE EDITOR

I've had the privilege and honor of serving as your Newsletter Editor for the last five years. I didn't know anything about writing a newsletter when I accepted this position but I had dabbled with Microsoft Publisher so I guess the nominating committee thought I would qualify. Now that's proof that you don't need experience to get elected in this group! This is a great organization and I wanted to do my best to help promote and support them so I willingly volunteered. However, it's time for someone else to take over this position because I need a break. I would be glad to discuss the responsibilities this job entails with anyone that is interested so please contact me at 405.605.7516.

It's almost time to form a nominating committee to present a slate of officers that will be elected in June. Please, please, consider volunteering for a position when that time comes!

ABOUT US:

Fiber Artists of Oklahoma (FAO) is made up of individuals interested in sharing knowledge and promoting appreciation of all aspects of fiber art, including weaving, spinning, embroidery, basketry, felting, papermaking, dyeing, rug hooking, lace-making, and quilting. Skill levels of members range from novice to expert, with some members experimenting as hobbyists, and others working as professionals.

Members of FAO participate in various activities during the year to encourage, support, and inform persons interested in fiber art. The organization promotes **Fiberworks**, a major juried fiber art show

featuring Oklahoma artists. Held each year, Fiberworks is now a nationally respected fiber show.

Fiber Artists of Oklahoma was formerly the Handweavers League of Oklahoma, the name chosen in 1976 by a group of hand weavers who first met in Norman, Oklahoma. Officers were elected, by-laws were written, and the first newsletter was published. In 1984 the group began meeting in Oklahoma City and became a statewide organization. A Certificate of Incorporation to become a non-profit [(501(c) (3)] group was filed and approved in 1985. In 1978, the organization initiated Fiberworks , a major juried fiber art show that has been held each year since. The Handweavers League was renamed Fiber Artists of Oklahoma in 2006 to better reflect the broader focus of the organization.

Fiber Artists of Oklahoma meets in Oklahoma City the second Thursday and in Tulsa the second Tuesday of each month from September through November and January through June. All meetings with the exception of the June Potluck dinner meeting are at the Belle Isle Library, 5501 N. Villa, Okla. City at 7:00pm or the Schusterman-Benson Library, 3333 East 32nd Place, Tulsa, at 6:00 pm unless otherwise notified.
